Getting Started Exercise #3: Do a Daily Card Pull

Daily Card Reading Directions

- Shuffle your cards while thinking about a question or intention (crucial). When you feel inspired you can either fan your cards out on a hard surface and intuitively select a card or leave your deck together and select a card from the top of the deck.
- Choose 1 or 2 cards each day and see what answers you can obtain from interpreting the number and/or the suit on the card. Get curious about what the number can reveal to you on its own and do the same with the suit.
- Use the follow pages for positional meanings.

2 - CARD READING
MY ACTION & REWARD

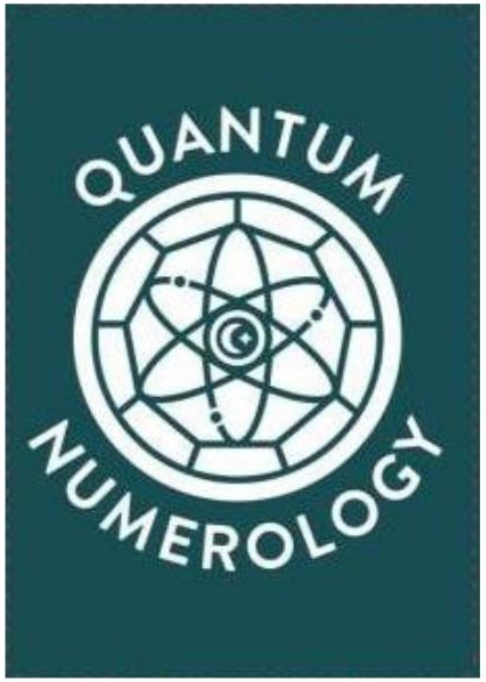

Card 1:
The Action that is most important for allowing your intention to come to fruition.

Card 2:
The next Reward along the way to fulfilling your intention.

1-Card Reading
What's My Next Best Step

This card will give you a simple action step related to an area of life that you most want to experience change. Make sure you have a clear intention about what you want to create. Notice if the card is suggesting an internal, external or spiritual action. Trust your instincts and first impressions. Be sure to journal your thoughts and then check back in a few days to see if your first impressions feel accurate to you.

Weekly Reading Step by Step

Pre-Reading Setup:

Determine Inner or Outer Feedback for the Week.
Print a Weekly Forecast Sheet.
Determine the current focus or context of the situation you are facing.
Access your higher consciousness and presence yourself.

1. Shuffle the cards while thinking of your current situation. Stop shuffling when inspired and no longer than a minute.

2. Place the cards on the table and cut them 3 times, pausing 20 seconds between cuts.

3. From the top of the deck layout 7 cards in order from left to right.

4. From the top of the remaining deck, proceed to pull another 7 cards below the first row and then repeat once. You will have 3 rows of 7 cards each, all pulled in order from the top of the deck.

5. From the top of the remaining deck select your last 4 cards in order >> The Long Range, The Pluto, The Result, and the Environment Card. These are drawn last but are your most dominant influences. Place them above the 3 rows of cards as presented on the Weekly Forecast Sheet. This is the Top Line.

Tips for Reading

What to Look For:

- Patterns – X, T, V, L
- Themes – Multiple Cards, Straights, Loops
- Colours of Cards
- Court Cards – People or Archetypes
- Your Birthcard + Other Birthcards
- Other Cards from your chart as you learn them

Leverage the Reading:

- Trust your initial read, write it down, review at the end of each day
- Apply literal meanings first and layer figurative or expanded potential. (Based on your conscious alignment (To me, For me, Through me, For me)
- Lean in to the lessons, challenges or potentials of higher card experiences during the day/week
